# INTRODUCTION

***Established in 1989, Boltfix Proprietary Limited is a one-stop outlet offering a comprehensive range of quality security and hardware products.***

**SAMSON**

## WHY CHOOSE SAMSON?

- ✓ We offer a comprehensive and diversified range of products.
- ✓ Complete supply solutions to cater specifically for your business.
- ✓ Strict quality controls ensure high quality standards are maintained.
- ✓ Customer focused.
- ✓ Years of experience lends itself to excellent product knowledge and expertise.

We accredit our success to our highly trained and dynamic workforce, who remain committed to providing service excellence to our valued client base. Our trusted quality and ability to provide solutions have allowed Boltfix and the SAMSON brand to become the names you can trust.

Our customers are the lifeblood of the company and our focus remains on forming long-term strategic partnerships, that are both ethical and progressive. We provide tangible and quantifiable benefits to all our clients, and we relentlessly strive to improve not only our service, but also the range and quality of our products.

Our sourcing capability, both locally and internationally, allows us to supply complete solutions to a wide range of industry sectors. Our relationships with our suppliers have, and always will be, built on a foundation of trust and integrity.

## VISION

To engineer and provide high quality products and supply solutions that meet and exceed all our customers' expectations.

## MISSION

To be the first choice supply solution.

## COMMITMENT

We commit to offering a diversified range of products at affordable prices.

We commit to constant innovation and improvement on our product ranges and quality.

32/300/450MM

<b>32mm</b>	Diameter of pipe
<b>300mm</b>	Installation length
<b>450mm</b>	Total length of handle

## STAINLESS STEEL MAINTENANCE

Maintaining Stainless Steel 304 (SS304) products ensures their longevity, appearance, and performance. Although SS304 is highly resistant to corrosion and staining, we recommend regular maintenance to ensure the product stays in optimal condition. Here are some tips:

### REGULAR CLEANING

Clean SS304 regularly to remove dirt, dust, and smudges. Use a soft cloth or sponge with warm water and mild soapy liquid. Avoid abrasive cleaners, as they can damage the surface of the product.

- For light cleaning, simply wipe with a damp cloth, and then dry with a clean, soft towel to avoid water spots.
- Ensure you dry the product after cleaning. This will help prevent stains and watermarks.

### DEALING WITH DIS-COLOURATION

Stainless steel has a tendency to slightly discolour due to the oxidation of the residue of the buffing wax left on the finished surface. We recommend cleaning stainless steel products with a non-abrasive cleaner (Handy Andy).

- Commercial stainless steel cleaners are also available for removing discolouration or heat marks, helping to restore the finish.

### SPECIAL NOTE

If your product is exposed to salty water (e.g., coastal areas) or chemicals, it may require more frequent cleaning and maintenance to prevent corrosion.

### DISCLAIMER

While SS304 is highly resistant to corrosion and staining, the product may begin to rust overtime, especially if not maintained correctly.

*SAMSON*
